Dear Mr. Small,

Sally Belfrage sends this to you because she wants you to see it. I hope you share her high opinion of it.

If you have any questions, please ask them.

Possible you have seen or heard of the incredible press recently for books on this subject. This is the book that did it, private edition or not, typescript or not, and the original intent was to smother. The effect has been the opposite and it will, eventually, lead to good things.

If there is any way in which you can help with the distribution, aside from the hopes I have for the contents, I have a printer to pay and need all the help I can get. Thanks for any suggestions you may make or anything you can do.

Sincerely,

Harold Weisberg
